

The Hong Kong Society of Theoretical and Applied Mechanics (HKSTAM) is a member of The International Union of Theoretical and Applied Mechanics (IUTAM), and was founded in 1996.

AIMS

- To facilitate the exchange of information in mechanics among persons engaged in scientific work in mechanics.
- To sponsor academic and social activities among members.
- To cooperate and affiliate with other national, international or regional learned and professional societies having objectives similar to the objectives of the Society.

ACTIVITIES

Activities planned for a year include a series of Distinguish Seminars and the Annual Conference. There will be invited and/or contributing presentations in the areas of solid and fluid mechanics, and environmental science in these events.

MEMBERSHIP

There are two categories of individual membership:

- Member
- Student Member

Qualified researchers and professionals working in the general fields of solid and fluid mechanics may join as Members. Bona fide research students working in related fields may join as Student Members. To join as either Member or Student Member, you should seek nomination from two Members of the Society. The Secretary can be contacted for an updated list of current Members of the Society.
